and value of e

the Fruit Grow-
er lists.
and every one
ing description
ward them an-

other; but in all such cases please state that it is for a duplicate, so that we will know that we have your name recorded. This aids us to keep our list without duplicate names.

NOTICE.—We will be pleased to have our customers look after our interests in their locality. While we do not employ agents, we are pleased to have clubs, or any parties wanting stock, to club together, and send their orders as one. In this way you can save quite a percent.; you can get stock at a less rate, and save in freight. Not only this: you save 50 per cent. in price over the cost if bought from an agent; you also get what you order when you deal direct.

Packing Season.

We begin July 1 with pot-grown plants, and can ship such until October 1. Layer plants are ready in September, but by dozen and hundred can be had in August.

October 1 is the date we begin on nursery stock, and it is poor judgment to want stock shipped before this date; but from October 1 forward, we can ship until the ground freezes.

When to Order.

EARLY, in all cases; you are then sure of stock and delivery in good time. *We also make liberal discounts on early orders.*

Shipping Facilities.

No nursery in the country has better lines of road to ship over than we, as we can reach every point in the land almost directly over one of the roads or its system, as follows: B. & O., P. C. & St. L., C. & P., Ohio River, C. L. & W., which is run by the L. S. & M. S. We can ship to those along the Ohio river by steamers, which they will find very handy, and freight low.

Express Offices: Adams, American, U. S., B. & O., Pacific, and Wells, Fargo & Co.

We ship from Wheeling, W. Va., on any road not in our town, as it is just as handy for us to do so.

Terms and Advice.

Cash with Order.—Nursery stock bought on time seldom does well! Then you should not expect us to know who are good and who are not.

Address all mail to E. W. REID, BRIDGEPORT, OHIO, and send money by Registered Letter, Post Office or Express Money Order, or Draft on New York or Chicago, at our risk; but money any other way is at risk of sender. *See that in sending money by Post Office Money Order your Postmaster DOES NOT send to Bridgeport, CONN.*

C. O. D.—We will send stock in this way, provided one-fourth the amount is sent with order, but remember, *you* must pay return charges on money. Telegraph office at Bridgeport, Ohio.

When making out your order, do so on a separate sheet. *Do not mix it with your letter.* Also state how your goods are to be shipped; name railroad or express company.

Former Prices

Are set aside by this catalogue, and prices affixed to dozen, 100 and 1,000 are for quantities named; but half-dozen, 50 and 500 will be supplied at dozen, 100 and 1,000 rates.

Guarantee.

All our stock is true to name and carefully labeled; yet, while we use the greatest care to do this, we will not be held responsible for any sum greater than the cost of stock should any prove otherwise than as represented.

E. W. REID,

Bridgeport, Ohio.

FRUIT TREES.

FALL PLANTING.

Those who contemplate planting trees in the near future will do well to set in the fall. This is the best time to set all kinds of nursery stock that is hardy and will stand the winter. It is not only the best, but can be done to a better advantage than in the spring. The ground is in better condition; you are not so rushed for time, and the work can be more thoroughly done. Still further, a tree set in November will make twice the growth of one set in April the following summer.

There is no necessity for a planter that understands the setting to miss a single tree. We recommend fall as the best time in the year to set trees.

APPLES, NEW VARIETIES.

Salome,	Yellow Transparent,	Red Beitigheimer,
Wolf River,	Newtown Pippin,	Longfield,
Delaware Red (Winter),	Gano,	Hydes King of the West.

Gen. Grant.	Kentucky Rod (Cider),	Siberian,
Hylsop,	Orange,	Transcendent,
Hew's Virginia (Cider),	Quaker Beauty.	Whitney.

PEACHES.

SPECIAL VARIETIES OF MERIT.

THE CHAMPION PEACH. The Champion originated at Nokomis, Ill., on the grounds of Mr. I. G. Hubbard. It has been carefully tested during a series of years. The feature which first attracted attention to this new variety was the regularity of its bearing, which, in a section not specially adapted to peach-culture, indicated a quality which alone gave it a place at the head of the list of profitable sorts for the orchardist. But the crowning event in the history of this great acquisition was the production of a full crop in 1890, when the peach crop was a universal failure. The scarcity caused the handsome, luscious fruit of the Champion to be regarded as a novelty almost. Champion stands at the head in other points, also, particularly size and quality. Many specimens have measured ten inches in circumference. The flavor is delicious, sweet, rich and juicy, surpassing all other early varieties. Skin creamy white, with red cheek. It is strikingly handsome in appearance. It ripens at place of origin, Nokomis, Ill., about August 5.

During the winter of 1887-8 the Champion withstood a temperature of 18 degrees below zero, and produced an abundant crop the following season.

	Each	Dozen	Per 100
First-class	\$0 50	\$5 00	\$30 00
Second-class	40	3 50	20 00
Third-class (mail, prepaid)	40	3 50

☞ Six or more grape-vines of a variety at dozen rates, by mail, postpaid; fifty or more of a kind at one hundred rate; one hundred grape-vines of different kinds, if order amounts to \$5 or over, at one hundred rate. \$10 worth of grape vines at one hundred rate. Box and packing free.

NOTE.—We have an immense stock of leading varieties, and will be pleased to have a list of your wants before you buy. Our vines are carefully graded, and nothing but strictly first-class shipped.

HEDGE-PLANTS.

OSAGE ORANGE.

The popular hedge-plant. Good stock, 1 year, 50cts. per 100, \$3.50 per 1,000; 2 years, 75 cts. per 100, \$5 per 1,000.

CALIFORNIA PRIVET.

Vigorous, hardy variety, of fine habit and foliage, nearly evergreen. Grows in almost any soil, and is very patient of pruning; makes a desirable ornamental shrub as well as hedge. 18 in., 10 cts. each, \$1 per doz., \$5 per 100; 2 ft., 15 cts. each, \$1.25 per doz., \$8 per 100; 3 ft., 25 cts. each, \$1.50 per doz., \$12 per 100.

AN INTERESTING BUSINESS.

A Concern Near Wheeling, of Whose Magnitude Few People Have Any Idea.

[*From Wheeling Daily Intelligencer, April 12, 1892.]*

An *Intelligencer* reporter yesterday had a conversation with Mr. E. W. Reid, the Bridgeport nurseryman, in the course of which several things were learned which were not only new, but interesting to the reporter, and doubtless will be to the greater part of the public.

Few people in this vicinity have any idea of the magnitude of Mr. Reid's business. He handles more mail than any other establishment doing business in the Ohio Valley, outside of the large publishing companies in Pittsburg and Cincinnati. This is a striking contrast with many firms who have been in business less than ten years.

Mr. Reid is an ardent advocate of advertising, spending thousands of dollars each season, and is now known as one of the largest advertisers in his line in the U. S.

He says this expenditure, with honest dealing and good stock, has made business so prosperous. Mr. Reid attends personally to his entire business.

It is astonishing the tons of mail and the thousands of orders that make their way to and from the Bridgeport office. They come from every nook and corner in the world. Not the U. S. alone, but from foreign countries.

One recently from a Catholic clergyman at Bristol, England, who enclosed his personal check on a local bank there in payment.

Mr. Reid says the Wheeling papers are increasingly valuable as advertising mediums for his business every year.

As to the location of a nursery here, Mr. Reid says there is not another as good in the country. The average nursery depends for shipment on one express company, while here there are six, and there is scarcely a town in the country that cannot be reached direct from Wheeling and Bridgeport, to say nothing of the river and freight lines, with their advantages for heavy shipments.

The climate, also, is just right. Farther north in a colder country, trees do not grow as hearty, while farther south, in a milder country, the roots do not grow as deep and strong.

Altogether this business is a striking illustration of what can be done with a good location, an understanding of the nursery business, faith in advertising and sensible enterprise. There are several other lines of business which need only similar stimulus to make them as strikingly successful as

REID'S FRUITS.

This is one striking success of his advertising, for one cannot open a paper of national reputation, but about the first thing that attracts his attention is

REID'S FRUITS.
